Subject: Your Circus

I just got back home from attending a Kelly Miller Circus show you held in Festus MO. I just wanted to stop and thank all of you for again coming to our little community/town not only did the children enjoy your circus but so did a lot of the adults as well. As a kid myself I could always remember my mom taking me to different circuses that would come in here and its so wonderful to be able to do the same thing and to create new fun memories with my son who's just 2! I live close to the park, where the circus took place and your staff works so fast and hard! All the preparation I'm sure is not easy to pull something like this off, but again coming from a spectators point of view things were great! The weather could have been a little better for you but again everyone still had a great time I think!

I wanted to stop and thank some of you in person for all your hard work and for doing what you do for the kids, but again everyone was working so hard to pack up! It's people like you who help children develop and have imagination! Again thank you if not in person than this email will have to do! To where ever the road may take you next on the journey that lies ahead thank you from all of us in Festus Missouri, and especially from my family we LOVED it!

This was by far the best Circus we have seen yet!!!
