August 1, 2011

To the wonderful staff at Kelly Miller Circus:

Another very successful circus experience has come and gone on July 18. We have heard nothing but compliments and how much everyone enjoyed the performance. Little ones come into the historical society and excitedly tell me about the clowns and all the acts. They have a memory forever of the big top coming to Tully..

The Town Officials again were amazed at how clean the field was when the circus was gone. Not a speck of paper or anything left to mar the appearance of the grounds. No incidents just everyone having a wonderful time from watching the set up to the performances.

The local veterinarian we recommended this year was called upon and the staff at the circus were very pleased with her. She also was very impressed by the care and handling of the animals.

I was thankful for the help from the three young ladies in the main office who politely answered every question I had. and again made the experience so easy for us.

The personnel we dealt with here in Tully were all helpful and enjoyable to work with. I could only wish that every group we worked with on various projects would be as great.

We will look forward to a repeat in a couple of years. Thanks again for everything.

Sincerely

Eleanor Preston

President Tully Area Historical Society
